

Budget Save Invest

Verse 1:

May all beings be wealthy in
soul, body and mind,
That's part of the second blessing
of loving kind.

The more people you can help,
The more money you can earn.
So lets get to it,
you'll have to learn:

Rich people read
fifty books a year,
Buffet, Jobs and Murdock
don't drink beer.

Want financial independence? Oh yeah
Replaces vices with virtues away.
and read at least an hour a day,

Chorus:

If you wanna get rich,
then scratch that itch.
grow with interest and dividend
wealth in body, soul and mind.
value time, budget, save, invest,
allow yourself to become
your very best.

Verse 2:

Fifteen percent of gross income you
save,
So that when retirement comes
you can just wave.
Get familiar with index funds,
bonds and stocks,
So they can work for you
while you're at the docks.
Winning through luck cedes control,
winning through planning is the goal.

Let your money work for you.
Let self be humble
Let self be frugal
Let self be generous
is how we do it

Bridge:

Face the music, you may feel bad,
be grateful for what you got
and feel glad,
you've gotta take control,
your power is your soul.
you're here on a mission,
so become a magician,
spell out your wishes,
calendar your dishes.

You don't have to be
an influential abbot,
You just got to get yourself
a keystone habit.
